

---

July - August 2016

Dear Friends and Family,

Thank you for your prayer support over the last several months. Michelle's cardiologist appointment went well. The doctor found no signs of leakage or problems with the seal that was placed in her heart. Also, the doctor took her off all prescription medication and she only takes a small dose of aspirin each morning. She was also given the green light to return to her normal active life to include exercise and long walks with me 😊. Her next appointment will be in January 2017.

As we continue to say good-bye to young families, we continue to reach out to new families as well as families that have been in the area for some time. In August we were able to set up a table on base for their annual community showcase. This event provided a great opportunity to make contacts, pass out tracts, small gifts and invitations to our services. I also had a unique opportunity to witness to a catholic chaplain.

Last month a young African/German family joined our fellowship and has been very active and supportive in the ministry. Some of our visitors are young families with no children and a spouse that is not saved. Pray with me as we work to reach them for Christ. One gentleman is open that he is not a believer in God nor organized religion, but will continue to attend to support his wife. Honestly, I can't wait to see how the Lord works in this family and how he becomes a believer before his rotation date.

In September we will also have to say good-bye to our daughter and son-in-law. Please pray for Ryan and Kayla. They will be moving to Florida to help care for Ryan's mom, Kathleen. Kathleen has stage four cancer and is not expected to make it through the year. They will be greatly missed and will leave a large void in our ministry here. Pray with us that other families will step up and fill the many responsibilities they had over the last two years.

Our goal is to reach and teach our military families so they can reach and teach others no matter where the military sends them. Thank you for helping us reach and teach our US Military in Europe.

Honored to Serve those who Defend our Freedom,

Doug & Michelle Cook
